- **10:30am: Rally**
- **11:00am-4:00pm: Legislative meetings**

Transition to Renewable Energy

Join our fight against fracking and push for a transition to renewable energy.

Water Quality and Quantity

Keep our drinking waters clean, reduce runoff, and eliminate harmful algae blooms that threaten our health.

Growth Management

Local, regional, and statewide planning is needed to ensure that community designs are sustainable.

Resiliency

Create infrastructure and policies that ensure climate and wildlife protection is long lasting.

Reduce Single-use Plastic

Protect Florida's waters and wildlife from single-use plastic bags, straws, and polystyrene.

Climate Justice

Support measures that protect the Floridians most vulnerable to the impacts of climate change.
